

RENEWAL TITLE V PERMIT STATEMENT

Facility Name:	Bumble Bee Boats, I.L.C
City:	Tulahoma
County:	Coffee

Date Application Received:	March 31, 2005 -
Date Application Deemed Complete:	Nov 5, 2005

Emission Source Reference No.:	16-0112
Permit No.:	558106

INTRODUCTION

This narrative is being provided to assist the reader in understanding the content of the attached Title V operating permit. This Title V Permit Statement is written pursuant to Tennessee Air Pollution Control Rule 1200-3-9-.02(11)(f)1.(v). The primary purpose of the Title V operating permit is to consolidate and identify existing state and federal air requirements applicable to ***Bumble Bee Boats, L.L.C*** and to provide practical methods for determining compliance with these requirements. The following narrative is designed to accompany the Title V Operating Permit. It describes the facility receiving the permit, the applicable air permitting requirements and their significance, and the compliance status of the facility with those applicable requirements. This narrative is intended only as an adjunct for the reviewer and has no legal standing. Any revisions made to the permit in response to comments received during the public participation process will be described in an addendum to this narrative.

Acronyms

PSD - Prevention of Significant Deterioration
NESHAP - National Emission Standards for Hazardous Air Pollutants
NSPS - New Source Performance Standards
MACT - Maximum Achievable Control Technology
NSR - New Source Review

I. Identification Information

A. Source Description

List and describe emission source(s):

Bumble Bee Boats, L.L.C is a manufacturer of fiberglass reinforced plastics boats. Boat components are manufactured using gel coat, resin & carpet adhesive. The components are then assembled to produce a boat.

16-112 Bumble Bee Boats, L.L.C

01: Gel coat Application -Two (2) Spray Booths No.1 & No.2 with Exhaust Filter Control

02: Laminating & Adhesive Application- This source consists of both Spray and Hand Application. Spray Lamination is conducted directly in front of Wall Ventilation Fans Equipped with Filters for Particulate Control. These Fans also Vent the Fumes from the Hand Lamination and Adhesive Application Activities
